This report summarizes 1983 traffic volume and vehicle miles of travel on Montana's Federal-aid Highway Systems. Average daily traffic volumes on the rural interstate and primary systems are classified into categories of all vehicles and commercial vehicles.

Comparisons are made with traffic volumes for the years 1981, 1982 and 1983, for each section of the Federal-aid System. Pickups are included in passenger cars in order to show a more realistic picture of travel by the heavier commercial vehicles.

Some of the more important comparisons of travel on Montana's Federal-aid Systems are shown in the following tabulations.
